

American Dental Association – Give Kids A Smile

February 2024

FREE DENTAL CARE

Give Kids a Smile will provide dental care to thousands of children, ages 12 and younger, whose caretakers otherwise may not be able to afford or access care. Dental services are administered by the member dentists of the New Jersey Dental Association. Services rendered include oral hygiene instruction, screenings, cleanings, x-rays, fillings, extractions, fluoride treatments, stainless steel crowns, and much more. Volunteers work to ensure the program is fun and educational and that it gives many children a great first impression of visits to the dentists. Best of all, all procedures are 100% FREE.

I urge you to take advantage of this incredible opportunity to have free dental care provided to children in need as well as introducing children to dentistry via a positive, fun-filled day of learning about the importance of oral health.

For more information, visit www.njda.org/GKAS.
